

**Centre for Economic Analysis is offering a post-doc position within a project funded by the Polish National Science Centre:**

The Post-doc will be employed to work closely with dr Michał Myck, the PI of the project entitled: „Changing times: work and out of work time-use dynamics in the context of technological changes and global shocks”, carried out at the Centre for Economic Analysis, CenEA.

Main tasks of the successful candidate will be:

- participation in research tasks in close collaboration with the project PI, dr Michał Myck, and other members of the project team;
- project database development, quantitative work on project micro-data, in particular on time use data which are the central data source in the project;
- active participation in the preparation and write-up of project publications;
- presentation of project results at national and international academic conferences.

In accordance with the project proposal the main project components cover analysis of the changing nature of worktime allocation, analysis of time allocation patterns from the point of view of job quality, as well as evaluation and examination of time arrangements among partners in couples.

**Selection criteria:**

- Doctorate in economics, other social sciences or in the area of data science (the degree obtained in the year of employment in the project or within 12 years prior to January 1 of the year of employment – NCN rules on extension of this period apply in accordance with NCN Council resolution 84/2024;\* candidates close to completion of their doctorates, expecting to receive their degree by the end of August 2026 at the latest may also apply);
- Excellent command of English (C1) enabling easy collaboration and communication with the international project team, work on academic texts in English, preparation of publications in English, and presentations at international conferences;
- Knowledge of quantitative methods; knowledge of Stata, R or similar statistical packages;
- Interest in applying quantitative methods in microeconomics;
- Experience in conducting scientific research resulting in high quality peer-reviewed publications;
- Availability and commitment to the research project;
- Research experience in labour economics and/or applied micro-econometrics will be considered an advantage;
- Other rules and restrictions concerning post-doc employment apply as specified by the general NCN regulations.\*

\* As specified in: [https://ncn.gov.pl/sites/default/files/pliki/uchwaly-rady/2024/uchwala84\\_2024-zal1.pdf](https://ncn.gov.pl/sites/default/files/pliki/uchwaly-rady/2024/uchwala84_2024-zal1.pdf)

### **Employment conditions:**

- fixed term, full-time employment contract for 2,5 years;
- expected start of the contract: preferably May 2026 and not later than August 2026 in case of later completion of the degree;
- monthly gross salary: 9300 PLN
- the primary place of employment for the selected candidate will be the local office of the Centre for Economic Analysis in Szczecin.

### **Additional information:**

Applications are accepted electronically at [admin@cenea.org.pl](mailto:admin@cenea.org.pl).

Additional information can be obtained at the same email address or on CenEA's website.

Candidates' applications will be evaluated by a selection committee chaired by the project PI dr Michał Myck. Selected candidates will be invited to an online interview, which may be followed by an interview conducted in person at the premises of the Centre for Economic Analysis in Szczecin.

Information regarding the selection of the successful candidate will be publicly announced on the website of the Centre for Economic Analysis ([www.cenea.org.pl](http://www.cenea.org.pl)).

The decision of the selection committee is not subject to appeal.

### **Applications should include:**

a) CV (in English) including a list of publications and research activities (presentations and participation in conferences, participation in workshops and research projects, internships, awards)

b) Cover letter (in English) which should include:

- contact information for two referees willing to provide written references;
- a declaration from the candidate that he/she is not funded by other National Science Centre projects;

- a declaration that the Centre for Economic Analysis will be the primary employer of the candidate, if successful.

c) The most relevant publication (in Polish or English), attached in PDF format

d) A copy of doctoral degree or an official document from the relevant institution confirming the expected date of degree completion;

e) Consent to the processing of personal data:

"I declare that I consent to the processing of my personal data by the Centre for Economic Analysis (Fundacja Centrum Analiz Ekonomicznych) with its registered office in Szczecin for purposes related to the implementation of the competition procedure for the NCN-OPUS

project. My will is expressed by sending the documents required in this procedure. I declare that I have been informed that: 1) The data controller is the Centre for Economic Analysis with its registered office at ul. Cyfrowa 2, 71-441 Szczecin, and the provision of data is voluntary. 2) The data are used solely for purposes related to the competition procedure, based on consent for purposes arising from the legitimate interests of the controller (Article 6 paragraph 1 letter a and letter f of the GDPR). 3) It is possible to withdraw consent or object to data processing, request access to them, rectification, erasure, restriction of processing, and transfer. 4) The data are stored until consent is withdrawn or an objection is raised. 5) Everyone has the right to complain to the supervisory authority for data protection, which is the Personal Data Protection Office in Warsaw.”
